Overall Quality Assurance

Remember: You do not need to be experts in the detail
of the subject matter

When looking at an RIA ask does it achieves its objectives

Remember: If you don't understand the point being made;
will stakeholders and the general public?

Overall Quality Assurance

Does the RIA (1):

- Present a logical framework for development of the proposal?
- Describe the rationale for government intervention?
- Explain what is intended to be achieved, how and by when
- Describe all the options considered, including 'do nothing' and alternatives to regulation?
- Clearly set out the evidence base, including analysis of all impact (economic, social and environmental)?

Summary

The big question to consider:

Does the evidence support
the recommended proposal and
do the net benefits outweigh the total costs?
